BOARD OF EDUCATION RETREAT

The Board of Education held its annual retreat meeting with a representative from NJ School Boards Association. The annual retreat is a time for the Board to evaluate its operations and develop goals for improvement for the coming school year.

The representative from NJ School Boards Association worked with the Board to identify their strengths and weakness and develop three to five points for development of a plan for the 2006-07 school year.

The Board of Education, upon identifying the needs, developed an action plan for the coming year which will be reviewed and evaluated throughout the coming school year at public meetings. The next retreat meeting will be scheduled for next Spring to develop a plan for the 2007-08 school year.
