OVERVIEW

The Academy is a three year school-within-a-school. Students will benefit from a feeling of identity and belonging as they advance through Red Bank Regional High School. The Academy offers 3 distinct strands to suit student career goals. The strands are divided into an Education, a Social Science, and a Humanities focus. Students in the education strand will receive coursework that is focused on training them to become dynamic teachers that can excel in global education. The Humanities and Social Science strand each begin with a leadership keystone class that will introduce students to different types of leadership styles and foster in depth analysis of the effects of these leadership styles on actions and outcomes throughout history and literature.
