

Dear Student or Parent/ Guardian,

The purpose of this letter is to elaborate on how food service at Red Bank Regional High School will operate throughout the 2020-2021 school year.

**Student in-person learners:** On days they are attending in-person learning, they will receive a hot breakfast in the cafeteria. They will practice proper social distancing while in line and while eating breakfast. There will be no self serve stations and all utensils will be individually wrapped and placed on their tray by the food service employee. At dismissal, students will be called down to the cafeteria in groups. Grab and go lunch and breakfast will be available for the virtual days in between their next in-person learning day. Students will practice safe social distancing while walking to the cafeteria, in line, and when leaving the cafeteria. Please reference the menu posted on the school website. <https://rbrhs.nutrislice.com/>. All meals follow National School Lunch Program and School Breakfast Program guidelines and will include heating instructions. Students are not required to pre-order meals if they are in-person learners. We encourage the use of electronic payments to lunch accounts at <https://www.myschoolbucks.com>

**Student virtual learner (M-F):** there will be a meal pick up at the main entrance every Wednesday from 8am-9am. Please use the order form below to place breakfast and lunch orders. Please complete the entire form. At pick up, you must provide proof of the student's current enrollment such as their student ID number. Please reference the menu posted on the school website. <https://rbrhs.nutrislice.com/>
