PARENT WEBINAR

Turning 18: Guardianship, Entitlements & Waiting Lists

Tuesday, December 8th, 2020

7:00 pm

Additional Information: At age 18 (or age 21 in some states) a child is viewed as an adult, regardless of disability and therefore, is legally empowered to make decisions. Parents will be faced with decisions about guardianship and surrogate decision-making. In addition, the service delivery system changes dramatically as children exit the school system. Often, there are waiting lists for services and federal entitlement programs, such as SSI and Medicaid can be difficult to navigate.

In this presentation, participants will learn about what to expect from the service system as a child transitions to adulthood and how to avoid common problems.

This hour-long presentation is presented virtually and includes a Q&A session at the end.

Please email your name to lmarcickiewicz@rbrhs.org to register for this event. A link will be provided prior to the event.
