

# Arrival Traffic Pattern Changes

## Drop-off at Building Main Entrance

This will be the only drop off location for morning arrival

All traffic dropping off must travel this route

Chains will be put up in the mornings across the three staff lots closest to the school to eliminate cross traffic during drop off

Lane 3 (furthest from the school) to be coned off completely until approximately 10 ft. after the first crosswalk

## **Media Center Lot**

No drop off traffic should travel in this area

The media center lot/loop should only be utilized by students parking in that lot, along with staff members utilizing the loading dock/Board of Education parking area

## **Staff Parking Lots**

Staff can access staff parking lots through either entrance, from the road between the two lots.
